

February 11, 2009

Dear Mr./Mrs./Ms.,

This month I moved to the Republic of Korea with the goal of finding long term employment here. The embassy of the Netherlands advised me to contact the Dutch Business Club Korea and by this letter I'd like to show you my qualifications.

I have obtained the Master of Science degree in Industrial Engineering and Management Science in August 2007. During my studies, I have specialized in industrial marketing, but I also have much experience working on projects concerning procurement, information technology, logistics and organizational assignments. I've always enjoyed working on highly ambitious and in depth practical projects and I hope to find this kind of demanding environment in my future job. The experience of having traveled in several countries makes me want to work in an international environment and I'd hope to find the opportunity to do this in the Republic of Korea and ideally in or around Seoul.

Enclosed is a copy of my curriculum vitae, which more fully details my qualifications.

I look forward talking to you regarding job opportunities in the Republic of Korea. Please contact me if you require any additional information regarding my qualifications.

Respectfully yours,

Marthein Philipsen
