Subject: Employment in Korea

Dear Sir/Madam,

By this letter I would like to motivate my ambition to work (long term) in South Korea and emphasize some of my skills. I am currently working as a management trainee for a Dutch financial firm (Delta Lloyd) and I would like to move abroad in the near future. I have always enjoyed working and living in an international environment and ever since I visited South Korea last year I am very enthusiastic about the country and its people. This made me decide to start learning Korean and look for a job opportunity in Korea.

As a management trainee I have experience in a wide variety of assignments, including financial, strategic and project management. In my first year I wrote a report on the strategy of Delta Lloyd Group for the board of Directors along with other assignments on behalf of the Planning & Control department. Working for the Planning & Control department gave me wider understanding of the financial management of a company and the linkages with its strategy. Currently in my second year as a management trainee I am working on the implementation of a Project Office as part of the new strategy of a newly acquired Business Unit. This taught me a lot about Project Management and Change Management. In all my assignments I have shown strong analytical skills and a feeling for strategy and finance.

I have ample international experience and well developed language skills. Apart from Dutch and English, I speak German and Spanish and I am currently working hard to learn to speak Korean. Working and living in an international environment is something I have always enjoyed. I worked in Austria, followed an Erasmus program in Spain and was the President of the International Student Network in Amsterdam. I found meeting people from different backgrounds and cultures both inspiring and interesting. These experiences also show I can easily adopt to different situations and cultures.

If you have any further questions regarding my application, please do not hesitate to contact me. You can contact me either on +31648562231 or by e-mail ([wwolzak@gmail.com](mailto:wwolzak@gmail.com)).

Thank you for your consideration.

Yours faithfully,

Wouter Wolzak
